With Amalgamated Copper and Sugar the Morgan Issues Show Gains on the Day - Rockefeller Brokers Busy in the Trading.

Stocks closed weak to-day, with Pennsylvania, the prominent issue, still under eavy pressure. There was a slight rally in the final dealings that raised prices slightly above the low level of the referred to the Ways and Means Comday, but the effect was in no way mittee. The following is the full text marked. Steel. Copper and Sugar were of the measure: exceptions to the rule, they showing gains on the day.

The market opened fairly strong, sold off under pressure on Pennsylvania Rall-road, then declined again, and so through the day prices rose and fell. During the session there were 774,000 shares of stock deatt in. Of this number 374,300 shares were Pennsylvania stocks. This makes for the three days beginning last \$69.300,000 of shares that have changed hands. This is heavier selling than characterised the attack on the issues. In no three days was so much of that stock sold,

The selling of the stock forced it down to 110 3-4, after which there was a sight raily. The which there was no sight raily. The whole market was a wifet raily. The whole market was not until the beame known that the courts had deeded that the decision of the Anthracket Strike Commission was not legally binding upon either the men or the employers that the lowest prices of the day were reached. The coalers reapponded to this news quickly and fell off under the lead of Baltimore & Ohfo, which seld down to 72 5-5, with Erie droping to p25 5-8 and Reading to 33 11-2. There was some support at these prices, and a raily followed which helped these the beautiful the seld continued the lowest prices of the coalers and shall continue during the product of the soil or interest of the was a some support at these prices, and a raily followed which seld convention preferred by the rails. The weakness of Atchison was due to the revival of the report that bonds would be issued. This was denied by officers of the road.

The Steel bonds were helped by the rains and shall continue the lowest prices of the road.

The Steel bonds were helped by the report that the Equitable Life Assurance Society had purchased \$15,000,000 of the bonds. The stocks of the company were strong all day and at no dimensional selling as high as 52.

Just before the beginnink of the last half hour there was a renewed selling of the whole list, which sent Pennsylvania etill lower and depressed the whole list. St. Paul lost about 2 points, Reading 2 1-5. New York Central 15-5. Millsouri Pacific 7-5, nd so through the whole lest.

The industrial list was sthe feature of the late market, 4ed by Amalgamated Copper, which closed up 2 points at \$3.1-4. American Sugar guined 1 percent. United States Steel common was up 3-5 at 10-12, and the preferred the same at \$1.1-4. The rest of the list was a shade off with the exception of Colorado Fuel and Iron, which lost 2 points at 25.1-2.

In the local traction group Metropolitan closed down 11-4 and Manhattan 11-6. Metropolitan Securities lost 3-4 and Brooklyn Rapid Transit 1-4 per cent,

Cooper, Tammany Aldermanic andidates of the Twenty-first, Twentyscond and Twenty-fourth districts, and second and Twenty-fourth districts, and Harvey Watterson, the Tammany candidate for Assembly from the Twenty-first Assembly District, all of whom were defeated, alled protests to-day with the Board of County Canvassers.

They declare that their Republican opponents were elected because void and defective ballots were counted in their favor. In each of these districts the election was close and the claims of the defeated candidates will be carried to the courts.

THE WHEAT MARKET.

December was the feature of the wheat market to-day, it opening strong n foreign buying orders. The rest of the list sold off all around on the cable which were decidedly bearish. The Northwest markets were steadler on smaller receipts than those of last year. Minneapolis advanced 1-8 to 1-4 of a cent in the first ten minutes of trading. St. Louis was firm. These facts eventually promoted a second railly here, and prices advanced 1-4 of a cent over yesterday's final figures. Shorts were prominent buyers, replacing wheat sold in the last few days. Corn also developed considerable strength on covering. December showing a gain of 1-4-over last evening's closing figures.

New York's opening prices were; Wheat—May, 81 1-8 to 81 1-4: December, 84 1-8. Corn—December, 45 7-8.

COTTON MARKET.

After opening 1 to 6 points higher on vigorous bull support the market soon yielded to bear pressure and adverse news conditions, which lowered prices a shade under yesterday's closing prices. There was considerable seling by room traders who usually represent big houses, and a feeling of uncertainty over the cut in wages at Fall River with a possibility of a strike.

The bears also made good use of the big receipts and failure of low temperatures to materialise through the South, as predicted. The heavy selling from New Orleans explained the weakness in Liverpool. After the install trading the market railied on rumors that spot houses had fair buying orders. January and March were conspicuous in the trading.

The opening prices were: November.
